The following is an examiner's statement of reasons for allowance: The newly cited prior art, namely Lopez-Rodriguez, has been considered. While directed to phenyl piperazines it lacks any teaching to modify the bicyclo ring systems taught at the other end of the piperazine terminus with aminosulfonyl chains or rings embraced herein. The prior art of record does not cure the deficiency. Becker, a later commonly assigned publication, discussed by applicants has also been considered. The examiner has noted applicants' remarks therein concerning compound 8 which is not claimed herein. While the letters cited in the IDS have been considered by the examiner they are not properly citable within the guidelines of MPEP 609 and thus have been lined through. Both Lopez and Becker articles have been cited on a PTO-892 accompanying this action.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
